877-741-0810, or email us , sales@powerupelectric.com

Please note: The final cost of the installation will be determined by the locations of the generator, the natural gas supply for the generator, and the automatic transfer switch. It assumes the generator will be located within 15 feet of the electric meter or the main electric panel, and within 15 feet from the gas meter or an adequate-sized gas pipe to the generator. Gas and electric runs are quoted for above grade only, underground gas or electric runs to generator will be quoted as an additional charge. Gas and electrical runs in basements open areas or through other unfinished areas are considered standard installations. Our prices exclude all utility upgrade charges if deemed necessary for the installation. 80% of installations are standard, so the prices quoted will reflect an accurate cost.

100 Amp ATS With 20 Circuits

Family room, Bedroom, Garage door, Bathroom, Refrigerator, Lighting, Sump pump, Furnace, Kitchen outlets, Basement lights, Alarm system, Ejector pump, Phone/alarm, TV/stereo, Toaster or microwave *and more*

\$7,899.00

Model 5744 20 KW Generator
200 Amp Service Rated (ATS)

This generator will power an entire house that has a 100 or 200 amp service, and in which the installation of the transfer switch isn't possible inside the house. This is a perfect solution for these situations. The ATS is installed outside, next to the electric meter, and the whole house is powered by the generator. This 20 km generator comes with a 200 service entrance rated transfer switch. No additional disconnect is necessary.

\$8,599.00

22 – 150 Kilowatts (liquid cooled)

Whole house generator (liquid cooled 1800 RPM). May be used with 200 amp whole house (ATS) or 40 circuit panel.

Starting at \$12,599.00

POWERUP ELECTRIC, LLC offers larger-size liquid-cooled generators for large to very large homes and businesses. These generators require more work, time, and cost; therefore, it is necessary for us to come out to make an accurate estimate. Please call or email us today for a free no-obligation estimate.
